Situated on the borders of the picturesque seaside village of Horto, the Leda Village Resort comprises a unique complex of apartments and villas in Pelion, promising a relaxed holiday by the sea. The Leda Village Resort extends within an area of 30,000 square metres in front of a sheltered beach. All its buildings expand amphitheatrically in the scenery amongst olive trees and lush vegetation in such a way so that the visitor is not in the least deprived of the magnificent view of the Pagassetic Gulf. Built in Pelion traditional style and decorated with folklore art paintings and stained glass fanlights the buildings of Leda Village definitely have their own character.
