We have created a hospitable complex with modern facilities and architecture including elements of Kythera. Sare with us the feeling that a sweet morning will be always dawining. Dive in Avlemonas crystal clear blue waters, and walk bare foot a few meters up to the little bay. Relax while looking at the amphitheatrical scene where local people and visitors are interacting. Romance the moonlit nights while listening to the tunes of the night. Leave aside your everyday boring routine, and live your dream, here with us, at Avlemonas Bay.
