Overlooking the enchanting bay of Salamis in one of the most ideal locations of the island that successfully combines the greenery of nature and the blue of the sea, we created a new and well-equipped luxury hospitality hotel. Aianteion Bay captures the visitor with its modern architecture that respects and exploits the natural environment, while in the interior it is fascinated by its modern (or luxurious) yet minimal decoration. With excellent infrastructure and upgraded services both in stay and in focus is a new benchmark for the island. Where discreet luxury touches on elegance, feel real hospitality and discover quality at its best. All rooms and common areas offer guests the experience of enjoying the unique sea view where the sleek style meets the discreet luxury as well as all the modern comforts in an aesthetically well-designed environment that ultimately has the purpose of relaxing of the visitor.
