The hotel "Wilde Rose" consists of three houses with 88 beds, one tavern and a large garden and is within 8 minutes walking distance from the beach of Dasia. We let out to groups with and without handicapped members, to families, couples and single persons. The division into three houses enables several groups with different needs to make holidays simultaneously. However, our priority is given to children and youth groups who focus on inclusion and to the German-Greek youth exchange. In general we offer accommodation in two-bed rooms with shower, toilet and terrace or balcony. Some of the rooms are accessible for people with impairments. Hot water comes from our own solar system. There is air conditioning in each room, but it does not necessarily have to be used. The tavern can be reached over a ramp by wheelchair users and it is equipped with a handicapped-

accessible toilet.
