Often, bars and restaurants are harmoniously intertwined with the flair of the area they are in. Through an intricate and fascinating exchange they shape jointly the atmosphere of the neighborhood. The city center enters a new era with the arrival of Zurbaran. Nightlife is redefined, staple foods are given a modern twist and the creative art of cocktail is being revived. Zurbaran brings a fresh air in the historic area of Kolonaki. Perfectly mixing urbanity and contemporaneity, it mingles elements of the past with trends of the future. A place that echoes the opulence of urban Athens (and awakens the urban legend of Kolonaki)!
