This superb accommodation occupies a sensational, landscaped position, almost overhanging the sea, at the entrance to Livadia Harbour. There are two little beaches immediately below, so pre-breakfast swims are easy. The rough path into the village takes less than 10 minutes, but because the apartments are built on the mountainside, access is steep and there are flights of steps leading to the accommodation. Ilidi consists of five separate buildings. Each suite, studio and apartment has its own spacious terrace with views over the bay. The furnishings and fittings are of the very best - colour coordinated and unbelievably smart and tasteful. The same attention has been paid to the specifications of the bathrooms, kitchens and bedrooms - the raised bed platform allows you to admire the views from some of the studios without putting a foot out of bed!
