Lefkos Pirgos Radio-taxi and Eurotaxi have been the two larger taxi transportation companies in Greece until the end of 2012. With a common vision to further develop taxi transportations and the relating services, we joined forces, so that we currently have 2500 members and own 1,200 vehicles, namely the biggest fleet in the Balkans, operating under the new name TAXIWAY. The combination of our 25 years of experience in the sector of taxi transportations, our constantly developing services as well as the large number of co-operations with major tourism institutions and state organizations mark us as the leaders in the field.

Διαθέτουμε εφαρμογή στο Google Play και στο App Store TAXI 18300
