Fax: 2310276133

Hotel Olympia is a contemporary pleasing hotel with intellectual design, right in the heart of Thessaloniki, housed in a historic building that belongs to the same family since 1929.

After the latest refurbishment and reconstruction, Hotel Olympia has become a boutique hotel with modern minimalist architecture offering quality services to guests who travel not only on business but also for leisure.

Its ninety-seven friendly rooms (including superior and family rooms, one junior suite and one room for the physically challenged) which overlook at the Roman Ancient Market all share the same design features and facilities like flat screens, parquet flooring, brand furniture etc.

The relaxed-chic decoration throughout the lobby, Campari Bar, H2O Restaurant and the fully equipped Omicron Conference Hall combines two philosophies: Extreme functionality of high-tech furnishing and the warmth derived from the use of natural materials such as marble and wood.
