On the beach of Kotsikia, Municipality of Nileos in the lush northern Evia, the difference is made by the pines and the crystal clear Aegean Sea. Here, in the woods, operates a small family unit called “Ioli Farm”.

With love and passion, we built a small paradise, two and a half hours from Athens over the trivial standards and invite you to visit it all times of the year.

Four two roomed, modern apartments that can accommodate from two to five people and a hostel for two people, equipped with all amenities. The apartments are three hundred meters from the sea and promise you comfort and relaxation.

At the “Farm” we have a small restaurant – café by the poolside, which servers buffet breakfast. There you will try our delicacies, wine production and our products that are organically grown without pesticides and harmful substances.

To us , the fish comes straight from boats to your plate and snacks from Mytilene Island which is our place of origin. The lobster spaghetti, the local rooster wine, hand made cheese pies, are among the many specialties of Ioli.

In our area, we have a beautiful swimming pool, next to the café surrounded by pines, for moments of relaxation.

There you can enjoy your swimming, coffee, dessert, cocktail even your food.

It is a nature lover`s paradise that includes fishing, scuba diving, nature trails, a swim in a local picturesque pond as well as the chance to explore nearby regions.

Ioli Farm is a full-service getaway, where we have tried to create an atmosphere of respect and care for our guests to enjoy as they spend their precious vacation time.
