Idili Traditional Guest House, located in the coastal village of Panormo, in the Prefecture of Rethymnon, is an imposing stone-built traditional landmark, a historically preserved building with large, impressive verandas and a majestic garden. Just 100m. away from the beach and 80m. from the village center where all the traditional taverns and stores are situated, the guest house was reconstructed a few years ago, retaining its Venetian and Cretan architectural features, such as the rooms and chambers, the archways and the stone walls, intact. The three apartments of the guest house Honeysuckle, Hyacinth, and Jasmine (Honeysuckle, Hyacinth and Jasmin respectively) have been rebuilt with such artistic delicacy and style to combine functionality and comfort with the Cretan tradition in the most perfect way.
