Montanema Handmade Village, a surprise lost in a magical forest of the Greek mountains that hide rare myths and traditions, is a destination in itself… Yes, you will enjoy all the facilities you dream of in the stone-built cottages and around… and yes, the local delicacies and wine of “Fournia” restaurant and the cellar experience will steal your heart… But, walking in the forest with the healing herbs, across the river and its waterfall, along the famous Plastira Lake, inhaling the virginity of the Greek Flora, will become a purifying act. This will not be just a trip to the Agrafa Mountains … this will be the most unexpected trip of your life.
