ELECTROPNEUMATIC S.A. was established in 1983 by Mr. Michaloutsos Nicholaos in Piraeus, Greece. The initial scope was to provide 24/7 service and troubleshooting on vessel control systems and her instrumentation but soon the high quality of services led to the growth of business and its portfolio. Today, Electropneumatic has a sought presence in the Marine Industry and Oil & Gas with more than 50 people as permanent personnel. Skilled technicians, control systems engineers and high level software developers all under the ISO 9001:2008 by ABS Quality Evaluations for the design, construction and repair of electrical/pneumatic equipment.

ELECTROPNEUMATIC SA is horizontally divided into four departments.
