A winding path carved between scented pine trees and weeping willows, and a deluge of steps, will guide you to the Magic Hotel. Situated 6km from the town and 250m from the sea, the Magic Hotel commands the ultimate panorama over the bay of Agia Paraskevi.

The Hotel was established in the early 90s by a local family who take great care in maintaining quality, excellent service, comfort and serenity for their guests. The hotel consists of three buildings, one of which was only just completed in May 2006.

The Magic Hotel is perfect for a romantic retreat, a family vacation or just an extra special holiday.
