Ellotis Villas is a traditionally stone built complex of 11 villas spread in 15 acres of private land. It has been a lasting vision to recreate the architectural style of the area that shows immense natural and architectural beauty. Every single one of the villas has been built with artistry by following traditional methods of construction and by using local materials, without compromising the comfort of modern amenities. Accommodating from 2 up to 8 guests, each villa is a detached, self-sufficient vacation home with its own private swimming pool.
