In Golden Land Goutos, with more than 40 years of experience in the Greek Real Estate, we specialize in the field of Premium properties, in the area of the Southern Suburbs of Athens and the magnificent Porto Heli. Additionally, we promote unique properties in very particular geographical locations all over Greece.

Our goal is to reveal the value of the properties that we represent exclusively, by providing a full package of investing proposals, always for the benefit of our

demanding clientele.

In Golden Land Goutos we take under serious consideration the location of the estate, along with its potential to develop as an investment opportunity.

The committed efforts of the founders of our company throughout these years, Evangelos and Constantinos Goutos, coincide perfectly with the development of the wider area of Porto Heli and its revelation to one of the most attractive tourist destinations in continental Greece.
