We are a private and commercial investigation company specializing in all categories of commercial and private investigations. Marathon investigations is headed by long-time veteran investigative journalist and detective Paul Anastasi, along with a network of experts throughout the country and region. While based in Greece, we also have partner associates, 'on the ground' in Turkey, Bulgaria, Cyprus, Romania, Albania, Serbia, F.Y.R. Macedonia, the Ukraine, Spain, Malta, the U.K., and U.S.A. This means we undertake regional investigations in other parts of the Balkans and Southeast Europe.

Our expertise relies mainly on the fact that we all have a background in investigative journalism and financial reporting/analysis. This has provided us with an extensive network of reliable sources and accessibility at the highest level (government finance ministries, opposition parties, business leaders, the judiciary, police and security services, chambers of commerce, etc.).
