EVERIT is active in Telecommunications, IT and Security by providing innovative products and solutions manufactured by world class manufacturers.

Our team delivers and supports integrated ICT Solutions. Whenever is needed we undertake the production of tailor made software applications .

For our clientele and our trusted partners we also provide services in Digital Transformation, Project Management and Business Development for technological

products and solutions.

Our Team, together with our Partners have a long and successful history in the high end technology industry, presenting outstanding performance in delivering important – challenging projects to any sector where high end technology is needed.

We remain flexible not only to adapt to any technological or market changes but also to hear, study, design and deliver solutions to your business demands regardless the scale.

We carefully provide the optimum business solution evaluating your current and upcoming needs while we are listening and understanding your business model, scope and overall businesses' profile.
