Offers you a nice, clean, and excellently located budget priced accomodation on the beautiful island of Corfu. The studios are located only 30meters from the beautiful sandy beach of Kontogialos, one of the most popular beaches in Corfu also known as Pelekas beach due to its vicinity to Pelekas village, which is actually situated uphill. Kontogialos is a beach certified with the "blue flag", which suggest that the water is clean and pure. It has some tavernas scattered along its width. It certainly deserves a visit and it is an alternative to the busiest neighbour, Glyfada beach, which can be very crowded and noisy.

The road here from Pelekas or Gialiskari takes you through a lush green landscape until you arrive at our sandy beach which, although organized, with eating places and water sports has preserved its natural environment relatively unspoiled.

Parnassos Beach front studios are ideal for couples or friends. Located only 30m from the beautiful beach of kontogialos, with splendid panoramic sea view and direct access to the beach.
