Has been seated in Greece, with many years of professional experience. Its privately owned facilities, covering an area of 13,000 m² at the 18th km of the Thessaloniki – Kavala Old National Highway, include pergola production premises equipped with the most modern machinery. Metaform Shading has been undertaking the complete design and production of the most developed pergolas for years. The experience and technical knowledge it has acquired enable the company to provide the most reliable solutions and specialized applications capable of meeting even the highest professional requirements.
