Kasimatis by La Perla in Imerovigli is a luxurious suite complex on a privileged location with gorgeous views to the caldera and the Aegean Sea. The property once used to be a canava, where wine was stored while it matured; today this canava has been reformed into an exquisite suite complex that maintains the traditional architecture and unique characteristics of Santorini, at the same time offering high accommodation standards.

Kasimatis by La Perla stays true to the genuine architectural style of Santorini: thick whitewashed walls with bold lines, simple geometric shapes, and stone-grey details, all blending with the wilderness of Santorini and its fierce beauty. Each suite features a large private patio overlooking the peacefulness of the Aegean Sea. From there, engulfed in the sweet fragrance of flowers and the serenity of the locale, you can enjoy the mystifying magnificence of the famous Santorini sunset.

What tops it all up and truly transforms this facility into a memorable accommodation experience is the amiable yet discreet hospitality we cherish to offer to all our valuable guests; we will welcome you as friends and will make sure that nothing will disrupt your holidays. The Kasimatis by La Perla experience of Santorini is one that will remain in your fondest memories forever!
