Our company is a family business that started from our father in 2007. Nowadays it is run by me Stelios Turlakis and my brother John Turlakis. Being born and raised in Milos, made us realize how important is a car rental for a visitor. We have met several tourists saying they have regretted not renting a car for their vacation in Milos and Kimolos and were disappointed not being able to rent one during their visit due to short availability in car rentals. Therefor we highly recommend to every visitor to rent a car, before their arrival.

Regarding our services, things are clear and simple. We offer the best car rental services in Milos and Kimolos and have one of the most flexible online booking services one can find. Our difference is our mentality. We pride ourselves for having a customer centric mentality and this is why you can have advanced services like:

(1) car rental by the hour, (2) easy online access to your booking, (3) Online booking cancellation
